Useful information to know

Implementation of Alien Registration Card
Verification ServiceImplementation of
Alien Registration Card
Verification Service

Registered foreigners residing in Korea
can also open accounts and conduct
financial transactions remotely.

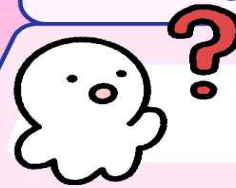

Useful Information

1.
What is the Alien Registration Card
Verification Service?

001

When a registered foreigner wishes to conduct non-face-to-face financial transactions such as opening an account, the financial company sends the personal information and photo from the registration card* to the Ministry of Justice. The Ministry compares this with the information it holds to verify authenticity and then sends the result back to the financial company in real-time.

*Includes Alien Registration Card, Permanent Resident Card, and Overseas Korean Resident Card.

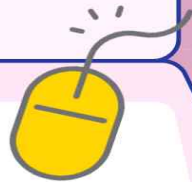

2.
How is identity verification
conducted?

002

Information extracted from the Alien Registration Card (personal information, facial information) is sent (financial company ▶ KFTC ▶ Ministry of Justice)

The verification result is sent in real-time (Ministry of Justice ▶ KFTC ▶ financial company)

3.
Is this service available
at all banks?

003

Initially, the service will be available for banks in the first financial sector, and the number of participating financial companies will be gradually expanded.
